

Schneeburger Strasse 12^{II}
Berlin, Feb. 25, 1894.

My dear Prof. Tacchini,
I have received your very kind letter, and regret with you the impossibility of making the expedition to Mt. Stna. Your proposal that the apparatus be sent to M. Ricco seems to me an excellent one, and, if possible, I will arrange to do so in the near future. This can hardly be during the coming summer, but perhaps it will be possible in 1895.

With kindest regards

Very sincerely yours
George V. Baker
