My dear Sir:-

Will you not kindly favor me by presenting the enclosed circular at the next meeting of the Societa degli Spettroscopisti Italiani, with a most cordial invitation to its members to be present at the proposed Astronomical Congress in 1893. We hope to make the chapter on Astro-Physics of especial interest and value, and I should be very glad to receive suggestions from members of the Society as to the plan and scope of this chapter of the congress. I should consider it a great favor if some mention of the matter could be put in the Memorie.

Sincerely yours. George E. Hale
