Ascenseur - Lumière Électrique  
et Chauffage Central à Vapeur  
dans toutes les chambres.

Milan, le 22 May 1898  
- Sunday -

Dear Prof Pacchini,

I think I said that  
the English regulation size of lantern  
slide was  $2\frac{1}{4} \times 2\frac{1}{4}$  inch. This is wrong.

The size is  $\underline{3\frac{1}{4}} \times \underline{3\frac{1}{4}}$  inch, thus 

Through your kindness I hope to receive  
about 12 pictures of your observatories &  
the instruments of the above size. My  
chief object is to show them to Lord Kelvin  
& the members of our Earthquake  
Committee

When I hear from you I shall  
immediately send a cheque for  
the slides, the pens, & the Seismoscope.  
Again thanking you for your great  
kindness and the trouble you have  
taken on my behalf.

Yours very truly

John Milner
