

R

Marlborough College,
Wiltshire.

April 29th 1882.

My dear Professor

Can you kindly
tell me when the opening of
the Aetna Observatory is likely
to take place? Will it be early
or late in August? The Austro-
Hungarian Association for the
Advancement of Science meets
towards the end of August.

Are you going this year to
La Rochelle?

At Christmas I went to the
East coast of Spain and to
Majorca - a very interesting
place.

I am

Yours very sincerely

G. F. Rodwell.

Professor Tacchini.
