

R Moscow, Russia,  
Aug. 13, 1887.

Dear Sir,

Allow me to request that a copy of your published bulletins for Aug. 18, 19 and 20 may be sent to my address, as given below. I wish to study the meteorological conditions prevailing in Europe at the time of the solar eclipse, and to compare with them the special observations made in the path of the shadow. I beg your acceptance of the accompanying article upon this subject.

I have the honor to be,

Yours very respectfully,  
Winslow Upton.

Address - Brown University,  
Providence, R. I.,  
U. S. A.
