

published, not than the figure  
of the spectrum, <sup>as</sup> photographed.  
I have not been able to do  
much lately owing to the  
weather, but have received  
my heliostat from Berlin  
and hope as soon as the  
weather improves to be able  
to begin again and do better  
than before.

Hoping you are quite  
well and with kind regards  
believe me

Yours very sincerely  
W. Waterhouse.

Calcutta

July 17<sup>th</sup>

My dear Sachin

I have to acknowledge  
with very many thanks your  
letter of the 16<sup>th</sup> June and  
the two photographs. The  
likeness is excellent and  
the photograph says much  
for the skill and taste of  
the artist - I am sorry  
I cannot return the compliment  
at this moment - because I  
have no photograph of myself

but I must be taken soon  
and if it will not fail  
to send you a copy.

I sent on your portrait to  
Peller. He desires me to  
thank you & send you his  
kind remembrances.

Many thanks for the  
box of publications for the  
Asiatic Society & others I  
shall duly distribute them  
when they arrive.

I noted in your letter  
that you mention having  
given a notice of my  
negative of the spectrum in the

*On looking again I find the binder has reversed  
the sheets and I am your kindly notes for which  
many thanks.*

Memoria. The last number  
I received had a paper <sup>included</sup>  
in the contents but it was  
not actually in the number  
in fact several pages  
appeared to be wanting and  
the same was the case  
with the copy sent by the  
same post to the Asiatic  
Society. I thought that  
perhaps the missing pages  
may well be the best  
number but mention it as  
I am writing.

I send you a copy of  
my note on the same subject  
to the Royal Society. It is only  
what you have already
