Professor P. Tacchini

Dear Sir

Your letter of the 10th of June has remained unanswered so long because I have been waiting to procure the Photograph which you did me the honor to request. It has been long delayed, but at last I have the pleasure of sending it. If it is not asking too much I should be much gratified to receive your picture in return.

I had ~~some~~ hopes to be able to send you also some pictures ~~results~~ of observations of the annular Eclipse of ~~April~~ ^{September} 29th, but the weather was very unfavorable, and nothing was seen of the phenomenon.

Should I succeed in finding anything worthy of publication I shall be delighted to have it appear in your most valuable journal, which I read with the greatest interest & profit.

The results of D'Arcevia's as to the Zodiacaal Light appear to me to have great importance, but to need confirmation, which I trust they may find in the clear sky of Italy.

I remain, dear sir, with the highest respect & consideration

Yours very sincerely
Ch. Young
