

Ref 1242.

Provisional Readings
at Antofagasta.
"Special Bulletin"

1965 - July, Aug, Sept, Oct, Dec

1967/8 - Dec, Jan, Feb.

Chile.

Publication names.

These are not as homogeneous as I'd hoped - Each year has various mixed stations with my attempt was put these locations within the publication 'files', however this has meant that there are now many different publications (when essentially most are the same they just vary slightly on the locations used to obtain data)

Location Section

As there are so many different stations within each bulletin, I have entered the location section for most as: Issua 2777 Santiago, Chile (This is the location of the institution).
